

SHIKWAMBANE VISION

OBJECTIVE

Dynamic and highly motivated final year software developer with a passion for crafting efficient and innovative solutions. Proficient in a diverse range of technologies including C# ASP.NET Core Web API, SQL, Azure, Ionic, Angular, and JavaScript. Eager to leverage my skills and knowledge to contribute to a forward-thinking development team. Seeking a challenging software development role where I can apply my expertise, collaborate with talented professionals, and continue to learn and grow in a fast-paced environment

EXPERIENCE

Department of Agriculture And Rural Development

Feb 2023 - Present

Software Developer

I was a pivotal member of a five-person team that developed an Electronic Document Management System (EDMS) for the Department of Agriculture and Rural Development as part of a school project. Our toolkit comprised of the Angular Framework and C# ASP.NET Core 6 Web API for the UI/UX and backend, alongside SQL databases for streamlined data management.

My contributions:

- Efficient Data Management: I optimized data handling using SQL databases, guaranteeing data integrity and accessibility.
- User-Friendly Interface: I crafted an intuitive interface using the Angular Framework and TypeScript, ensuring seamless user experiences.
- Robust Backend: I leveraged C# ASP.NET Core 6 Web API to establish a reliable backend infrastructure.
- Milestone Attainment: I was overseeing the achievement of project milestones, conducting thorough testing, and maintaining open lines of communication with stakeholders.
- Azure Cloud Storage Management: I optimized Azure Cloud Storage to store files from the system.
